

# Sphero SPRK+

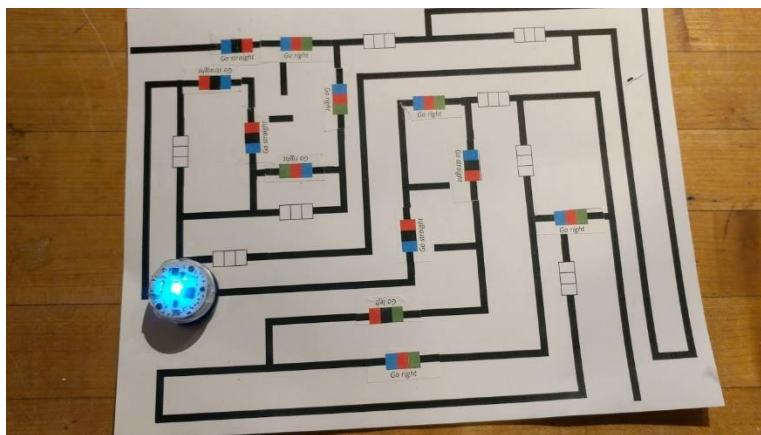

# Ozobots

How it Works:

Ozobots use sensors to follow lines and read Color Codes you make with markers (or stickers!). Choose from Speed, Direction, Cool Moves codes, and more.

Ozobot Blockly:

Build programs for your bot with drag-and-drop blocks.

# Quackers (Cheese and Quackers)

**Waddles**

**Swims**

Great robot for toddlers to play with!!
